Resumo

I'm Patrícia Coentrão and Co-Owner at Diagnext.com, a company committed to innovation and excellence in the area of health and digital technology. I am a nutritionist, master and doctor in Analytical Chemistry, all from Universidade Federal Fluminense, with European validation of the master's and doctorate from the University of Minho in Portugal, with more than 21 years of experience in research, clinical care and health project management. My career includes working as a Senior Researcher in health data related to Nutrition and Chemistry in the Government of the State of Rio de Janeiro, in addition to a career as a nutritionist in high-demand hospitals, such as the Hospital Geral de Ipanema and the Hospital Estadual Azevedo Lima . I also have solid academic experience, with several scientific publications and participation in highly relevant research projects. At Diagnext, I coordinate projects that integrate technology and health, focusing on innovation to improve the efficiency and quality of medical services. My experience in project management, development of clinical protocols and training of health professionals, enables me to lead initiatives that promote significant advances in the area of health. I am excited to contribute my knowledge and skills to projects that seek to transform public health , promoting innovative and environmentally sustainable solutions.
